

## Eltech ozonated water machine

### Features:

1. High efficient to remove odor and kill virus.
2. High ozonated water concentration: 0.5-2Mg/L
3. Low power consumption:  $\leq 100W$ , it must turn on the water valve for machine running
4. Wall mounted design

The machine will start to make the ozonated water once the water valve is open;  
It stop working when the water valve with closed.

## Applications:

1. It can kill Bacteria and Viruses so useful for Toilet cleaning, Poultry House, food industries, Airports, Hotels etc.
2. Vegetables and Fruits washing
3. Drinking Ozonize Water
4. Ozonized Water for Washing Machine to wash clothes
5. Sterilization of Corporate Offices and Factories for COVID19

## Specifications:

Model	EOW
Ozonated water concentration	0.5-2PPM(0.5-2Mg/L)
Line power supply	220V/50Hz
Power	≤100W
Size	400*350*150mm
Water flow rate	10-25LPM
